

Services & Duolingo Section Update

Act as an expert web developer and copywriter. I am building a study abroad consultancy website called 'EduQuestAbroad' specifically targeting students from Bangladesh.

Please rewrite and restructure the "Services" section of my website.

Here are the structural rules:

Delete the "Scholarship support" service entirely.

Keep these four main services:

1. University Admission Guidance
2. Visa Application Assistance
3. SOP and Essay Writing
4. Mock Visa Interview Coaching

Here are the crucial content instructions:

1. University Admission Guidance (Must include a major highlight for Duolingo):

- **The Problem:** Many Bangladeshi students are terrified of the IELTS exam. They waste a lot of money and time taking it multiple times because they can't get their desired band score.
- **The Solution:** Many don't realize the Duolingo English Test (DET) is a cheaper, faster, and highly accepted alternative for many universities abroad.
- **The Task:** Inside the "University Admission Guidance" service card, add a highly attractive sub-section or highlighted feature for **"Duolingo Practice Sessions & Guidance"**. Write persuasive, empathetic copy that relieves their IELTS anxiety. Tell them they don't have to give up on their dreams just because of IELTS. Encourage them to contact/knock us to find out which universities accept Duolingo and how our practice sessions can guarantee their success. Make this feature stand out visually (e.g., with a "Hot" or "Smart Choice" badge).

2. Visa Application Assistance:

Write short, professional text emphasizing complete A-to-Z guidance, from gathering the right financial documents to filling out forms accurately.

3. SOP and Essay Writing:

Write copy focusing on helping them tell their unique story perfectly to university admission boards, ensuring their statement of purpose stands out.

4. Mock Visa Interview Coaching:

Emphasize one-to-one mock sessions. Mention that we help them build confidence and overcome the fear of facing the visa officer, providing expert feedback to ensure visa approval.

Please generate the updated HTML and CSS for this services section. Make the layout modern, clean, and ensure the Duolingo highlight is eye-catching and drives users to click a "Contact Us" or "Learn More" button. Include the persuasive text you write directly in the code.

Pricing Lists:

Act as an expert web developer. Please redesign the pricing section of my website. I want to sell my services individually, so I need 4 separate pricing cards side-by-side (or in a neat grid).

I want the design to look exactly like modern SaaS pricing tables. Use green checkmarks (✓) for included features, and red cross marks (✗) for excluded features to make it very clear what the student is paying for in that specific service.

Here is the exact content for the 4 cards:

Special Batch Section:

Act as an expert web developer. Please look at the "Special Batch" section on my current website. I want to completely replace this section with a new, highlighted "Most Popular" section that offers my Complete Study Abroad Package (which includes all 4 of my services combined).

Please create a wide, beautiful, premium-looking banner or large card for this section. It should stand out from the rest of the page.

Here is the exact content to use for this new section:

Badge/Highlight: Most Popular & Best Value Title: The Complete Study Abroad Package
 Subtitle: From your first university search to your final visa approval, we stay by your side.
 Price: ₳22,000 *(Save ₳3,000 by booking everything together!)*

Make sure the design feels very premium, trustworthy, and easy to read for students in Bangladesh. Ensure the layout is responsive and looks great on mobile phones.

What we Offer:

Act as an expert web developer. Please look at the section of my website titled "What We Offer" (which has the "COMPLETE PACKAGE" badge above it and contains 8 grid cards with Bengali text like 'ব্যক্তিগতকৃত বিশ্ববিদ্যালয় সুপারিশ', 'অফার লেটার প্রাপ্তি সহায়তা', etc.).

Please completely delete this entire section (HTML and any specific CSS tied only to it). > We have already covered our offerings in the new "Services" and "Pricing" sections we just built, so this section is now redundant. Ensure that removing this section does not break the layout or spacing of the sections above and below it. Make sure the transition between the remaining sections looks smooth.
